

Projecto SIBD (ER Model + Relational model - set of tables)

Entity: medical device

Subentity: {input sensor
actuator
both}

Note: Entidade para tratamento de informação

To have a weak entity or do all its attributes use as a primary key? Same to physical measures.

A PAN can have many devices. A device can only have 1 pan.

No weak entities??

Datalar com Time e Physical measures

- Todo a forte relação/entidade que envolvem a PAN
- Falta de weak entities
- Falta prender tipo de relações
